

Individual Effort on Group Projects

Points: 10

It's important to gather feedback on how groups function so that modifications can be made and suggestions offered to help groups function smoothly.

This assignment is your opportunity to provide anonymous feedback to the instructor on the functioning of your group.

Please check the calendar in Vista, or the last module, for the specific due date for this assignment.

Here's what you need to do:

List each team member, and rate each person on a scale of 0-2 in each of the areas.

2 – above average

1 – average

0 – below average

Quality: Completed all assignments at the level of quality expected by the group

Responsibility: Completed all assignments in a timely manner

Teamwork: Worked well with other team members

Contribution: Contributed to the group in an equitable fashion

Attitude: Projected a positive attitude throughout the group projects.

Member name	Quality	Responsibility	Teamwork	Contribution	Attitude	Total Score

Additional comments:

Evaluation

Submit the chart and any additional comments for grading.

You will receive 5 points for completing the table for your group.

For the other 5 points of this assignment, you will receive the average of the total points you receive from other members of your group, divided by 2. For example, if you receive a total of 10 points from each team member, then that's an average of 10, and 10 divided by 2 is 5, so you will receive 5 points.

If you hypothetically receive 6 points from one person, 9 points from another, and 8 from another, that's a total of 23 points. The average of 23 points is 7.6 (I'll round up to 8). Eight divided by two is 4, so in this example, you would receive 4 points for this portion.
